

MONOFUSE – The Point Of No Return

## Come inside

### Verse

You don't touch although you could  
You look deeper than you should  
You speak out what is on my mind  
You don't take everything you find

I can relate to what you do  
I do accept that you are you  
I can get lost inside your eyes  
I still believe all of your lies

We fit the way things should connect  
We found a way we don't forget  
We took the time to go outside  
We are

### Chorus

So come inside now, baby  
Come inside, I show you where to go  
Show you where to come inside now, baby  
Come inside I show you where to go  
Show you where to come inside to me

### Verse

They say I'm better on my own  
They are but all they do is moan  
They claim you are not what you sell  
They mean I am under your spell

We should not stay what we are now  
We can get further I know how  
We took the time to go outside  
We are
