

MONOFUSE – The Point Of No Return

## Like the sun

### Verse

I'm watching you, if you're another kind  
The reasons that I need to know but I could never  
find

What makes me to believe the words I hear  
Spoken by the blinded just to keep feeding my fear

I try to cross the border  
I try to walk the line  
Of bypassing the order  
That has never been divine  
I know where we're going  
And I know that we need to leave

### Chorus

We are like the sun  
From east to the west  
We travel this time and land  
With the same heart that beats in our chest

We are like the sun  
The shadow we cast is the same  
But look at what we all became

### Verse

We're caught inside the walls that we have built  
To keep out everything reminding us of our guilt  
But life's outside, you don't need to look  
You don't need the promises that you find in your  
books

If you would cross your border  
If you would walk my line  
Just bypass all the orders  
Don't you think that it is time?  
I'd show you where to go then  
And you would only have to leave

Hepimiz güneşin çocuklarıyız
