

MONOFUSE – The Point Of No Return

## The point of no return

### Verse

You take away my sleep  
I'm fed up counting a million sheep  
So tell what you mean  
I am the prettiest you've seen

Don't look at me  
You're killing me  
Don't want to be buried in an agony

Don't be unfair  
I'm no affair  
Be true, I'll be the same to you  
Anytime

### Chorus

We cannot run  
From what we cannot hide  
Can't hold the sun  
To steal away this night  
We have reached the point of no return

### Verse

I start losing my mind  
There is no exit I can find  
So help me out of this  
Or I'll get lost inside your kiss

Stop making weak  
I'm no crying freak  
I've lost my inner will to speak

I cannot move  
Your wicked groove  
I lose this fight but you can't win

### Chorus

We cannot run  
From what we cannot hide  
Can't hold the sun  
To steal away this night

In which we hide  
The need from what we run  
But in this night  
We'll burn inside the sun  
We have reached the point of no return

### Bridge

You make me thinking I'm the one in control  
You know exactly I'm not

You push me harder to step out of my role  
But can you loosen this knot

### Verse

Who will you be  
When you are free  
Are you the one who is good for me?

Don't tell me lies  
You'll pay the price  
I need a man to handle me  
Anytime
